ABOUT ME

I am a dependable and creative Motion Designer. With 10 years of professional experience under my belt, I can seamlessly integrate into a team, or take the lead on a full project from start to finish.

My passion is to make beautiful designs move - animated characters with heaps of charm, informative and concept driven explainers and exciting 3D motion design that packs a punch.

I use a solid background in Graphic Design and Digital Illustration to create engaging design driven animation.

EXPERIENCE

**2010
